This documentation demonstrate how add a button on the Windows Calculator

Step #1

Download and install Bill Redirect software
http://www.billproduction.com/Bill_COMtoKB.ZIP

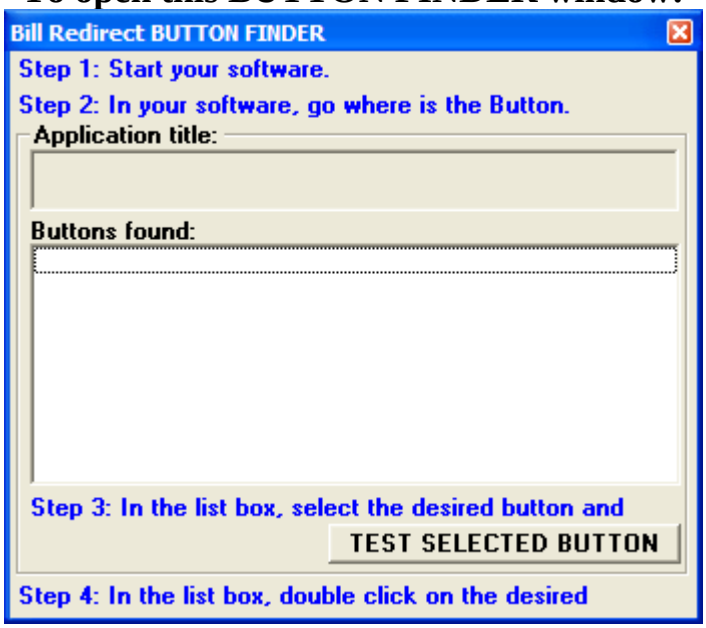
Step #2

Disable all except the Virtual Keyboard section

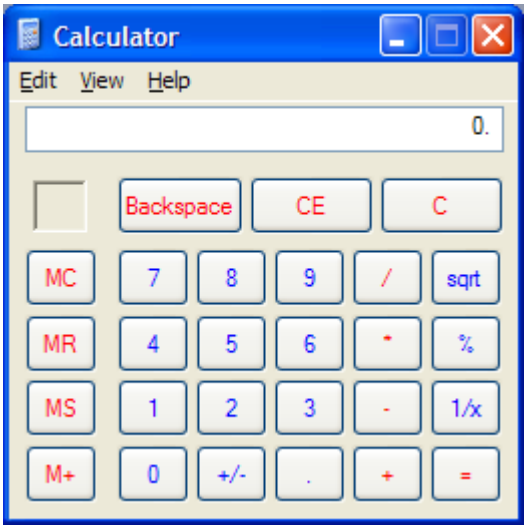
Step #3

Type in the password field: BFINDER

To open this BUTTON FINDER window:

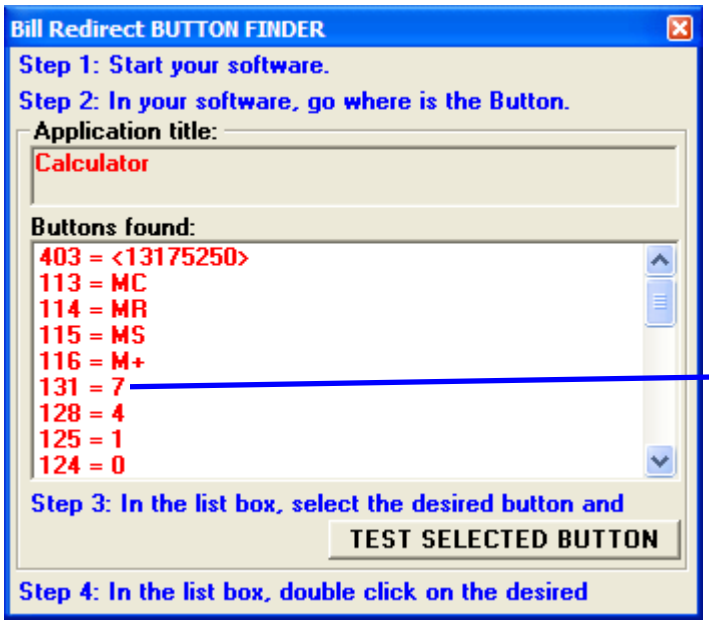


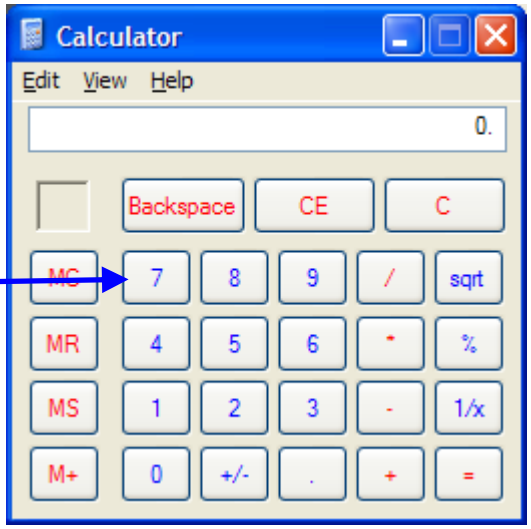
Step #4



Start Windows Calculator

Step #5





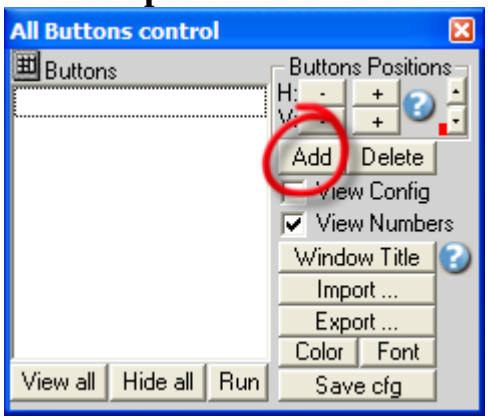
At this moment you can see the Calculator button list.

The button 7 **on your Calculator is the button number 131 in the list.**

Step #6

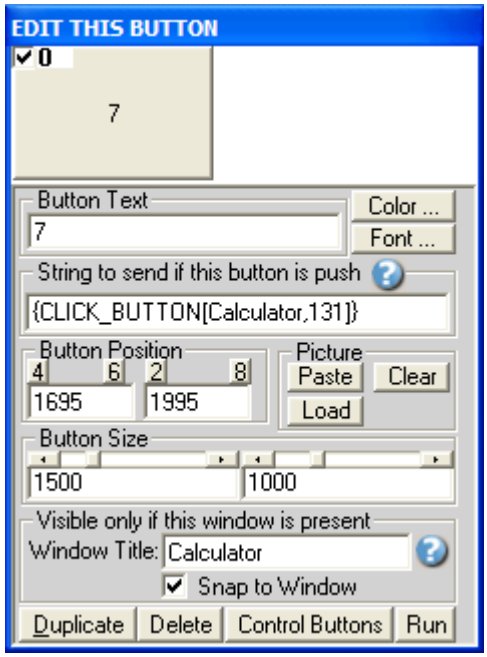
Click on button: Configuration

To open this window:



Click on button: Add

To create a new button :



Use this configuration

Button Text: 7

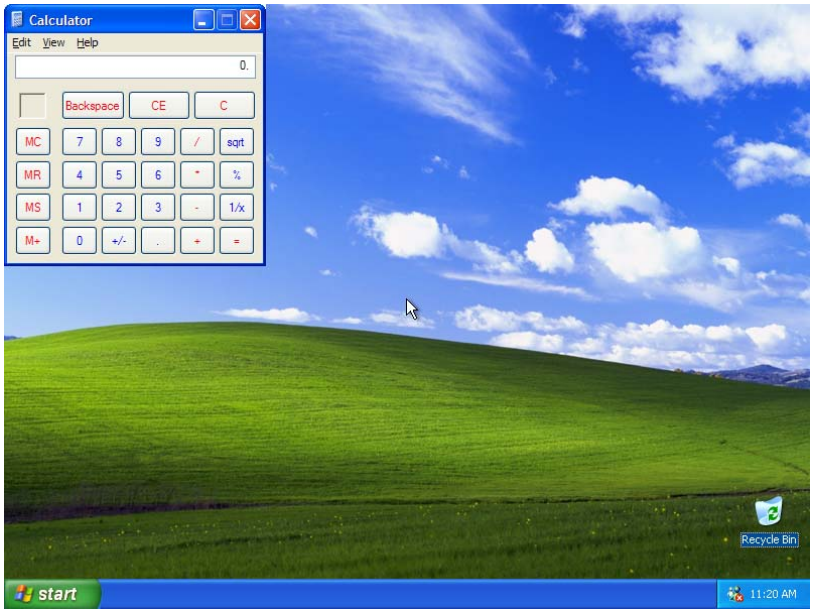
String to send if … is push: {CLICK_BUTTON[Calculator,131]}

31 is the button number, found in Step #5

Window Title: Calculator

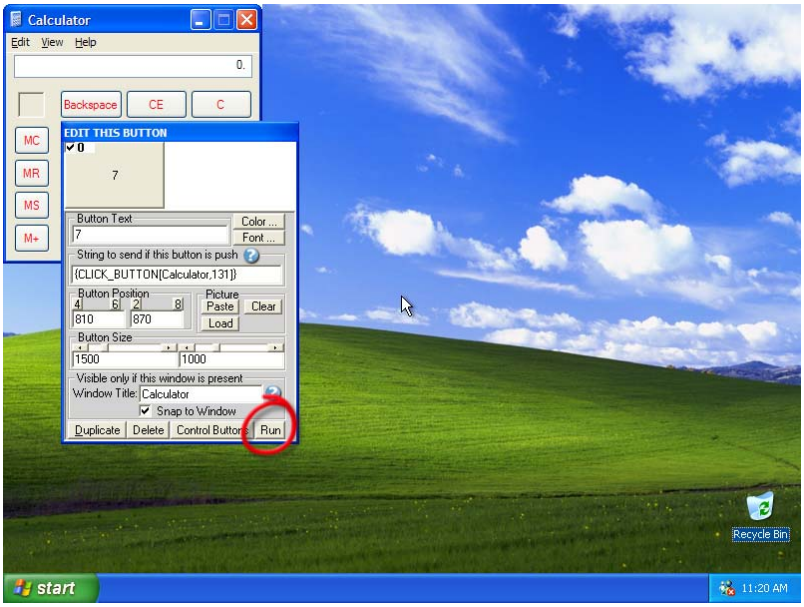
Check the option: Snap to Window

Step #7



Move the Calculator on the top left in your Windows

Step #8



Move the Button where you want on the calculator.
Click on button: Run

At this Step:

- You can move the Calculator and the button move at the same time.
- You can click on button 7 and this number appear on the calculator.
- You can activate another software and the button 7 disappear.
